

# SIMPLIFY OPERATIONS WITH THE HOMEBUILDING CLOUD

## Architecture

10x Faster Plan design & drafting

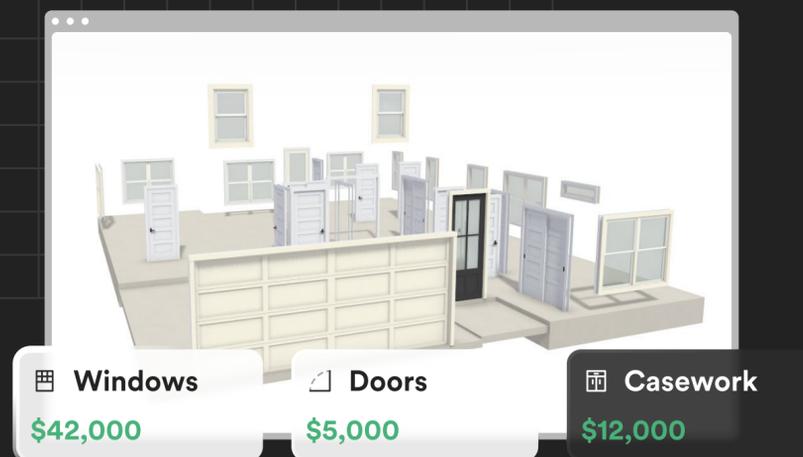

## Sales

3D sales tools & marketing renders

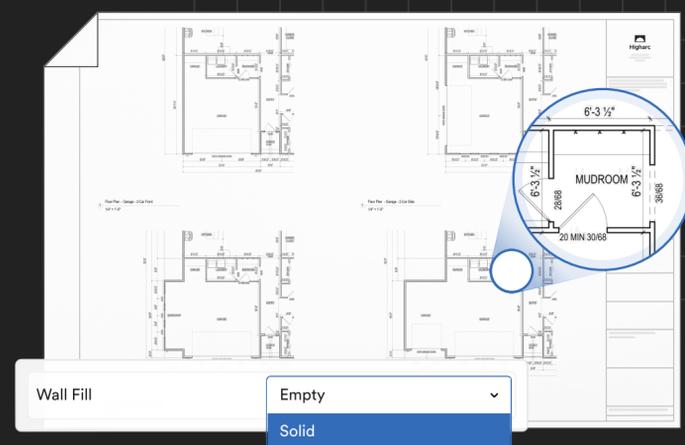

## Estimating

Instant, accurate estimates that update in real-time

## Operations

Automated master plans and lot specific construction docs

“ It’s not rocket science—run the numbers. Higharc pays for itself fivefold with the improvements it brings.

Eric Sanford  
Director of Operations

LANDMARK 24 HOMES

## BOOK A DEMO

Scan this code and see how Higharc helps you increase margins, and decrease cycle times.

# Reduce cycle time, cut costs and elevate the customer experience

## Design and update products 10x faster

Accelerate design and drafting with automation and centralized options. Deploy changes across every plan automatically.

## Go to market faster

Launch communities, manage lots specs, change options, and generate CDs all in one place –zero drafting required.

## Get real-time estimates from your plans

Eliminate manual tracing and get data-driven material quantities and costs, instantly.

## Inspire buyers and sell with confidence

Personalize in 3D online, generate lot-specific sales materials, and produce fast, accurate photorealistic renders

“Higharc combines the ease of old-school 3D architect tools with today’s cutting-edge technology, enabling businesses to operate efficiently with fewer overhead costs.”

Cory Wilson  
Vice President of Operations, HistoryMaker Homes
